## EDUCATION

- Graduated from Middlesex High School in 2008.
- Graduated from the University of Delaware in 2012.
- Bachelor of Science in Computer Science.
- Overall GPA: 3.1, Computer Science GPA: 3.4.

## PROGRAMMING LANGUAGE EXPERIENCE

C/C++	Python	Javascript	HTML
Java	SQL	PHP	

## EXPERIENCE

- **JPMorgan Chase & Co. Technology Program Analyst, July 2012 – Present**
  - Application Developer
    - I worked on an external facing Point of Sales System for Rural Housing built primarily in J2EE built on the Spring Framework, Javascript, and Microsoft SQL
    - I am one of four developers and beyond day to day activities I completely rewrote the project's scheduled batch jobs translating them from C# to Java to align with the team's expertise and designing a library to make creating new jobs in the future easy.
  - Service Delivery
    - I will work with the Application Development and Infrastructure teams to make sure that Mortgage Banking's Default applications are all working
    - I will contribute information to monthly Service Delivery Reviews
- **SevOne, Inc. Internship program, May 2011 – August 2011, January 2012 – February 2012**
  - Of the 50 total developers, I and a handful of others are part of the maintenance team where we go through code currently on customer's computers and fixed problems and made improvements.
  - On the job I learned advanced uses of HTML, PHP, Javascript, JQuery, AJAX and JSON.
  - I have worked on many high priority defects which were hot-patched on customer's products.

## VOLUNTEERING

- **FIRST Robotics Competition Advisor, January 2009-Present**
  - I help new students learn the basics about the FIRST Robotics Competition.
  - I teach students on the team layout, build, wire and troubleshoot the electrical components on the robot.
  - I help students learn how to program the robot so it will function for competition.
